## Introduction

- *Enclosed is the weekly Treasury Single Account ("TSA") cash flow report, supporting schedules and budget to actual variance analysis.*
- *TSA means the Commonwealth's main operational account in which substantially most Governmental public funds are deposited and from which most expenses are disbursed.*
- *Receipts in the TSA include tax collections (including revenues assigned to certain public corporations and pledged for the payment of their debt service), charges for services, intergovernmental collections (such as reimbursements from Federal assistance grants), the proceeds of short and long-term debt issuances, and other receipts. Only a portion of the revenues received by the TSA is included in the annual General Fund budget presented to the Puerto Rico Legislative Assembly for approval. Other revenues are separately assigned by law to certain agencies or public corporations but still flow through the TSA. Furthermore, from time to time, the TSA also includes amounts held in custody by the Secretary of the Treasury for the payment of current pension benefits, including amounts deposited by the ERS, TRS and JRS.*
- *Disbursements from the TSA include payroll and related costs, vendor and operational disbursements (including those reimbursed by Federal assistance grants and funded from Special Revenue Funds), welfare expenditures, capital outlays, debt service payments, required budgetary formulas and appropriation payments, pass-through payments of pledged revenues to certain public corporations, tax refunds, payments of current pension benefits and other disbursements.*

  - Schedule F - Other Legislative Appropriations - Source for the other legislative appropriations is DTPR. Data is received on a daily basis.*
  - Schedule G - Central Government - Partial Inventory of Known Short Term Obligations - Sources are DTPR. Data is received on a weekly basis.*
- *Data limitations and commentary:*

*The government has focused on the seven schedules above because the team has been able to access reliable, timely, and detailed data to support these items. The government continues to work with DTPR and other parties to access additional reliable data that would help us provide detail in the future for other line items in the Cash Flow. One specific area the team is making headway with is the "other payroll" line. Timing updates for detailed data regarding this line item will be provided when available. Please note that weekly cash versus forecast variances will not be available until August 4th. Please refer to this section in future weekly reports for additional updates.*
